Great Plains gave Central Washington Comprehensive Mental Health the ability to easily integrate with an industry specific solution, PsychConsult, allowing them to electronically transfer data from PsychConsult to Great Plains General Ledger saving hours of data entry time each month.

CUSTOMER:

Central Washington Comprehensive Mental Health (CWCMH) provides a full range of mental health treatment, rehabilitation and support services to the psychiatrically disabled and others needing mental health services. Specialized services are developed, staffed, and provided to address the specific needs of the client group served. CWCMH utilizes formal and informal relationships with a wide variety of other private and public sector service providers to establish and maintain a comprehensive network of mental health and related services to mutual clients in the community.

NEED: New Financial Software

CWCMH required a new business management solution to solve several pressing issues. CWCMH needed to address their day-to-day core financial software needs, such as Accounts Payable, Accounts Receivable, Payroll and the General Ledger. CWCMH required a flexible solution that would report complex financial information. With over 35 budgets, the need for flexible reporting and budgeting was crucial to their organization. Lastly, CWCMH uses a software application called PsychConsult that tracks and bills their clinical services. Whichever system CWCMH chose, it needed to integrate with PsychConsult.

SOLUTION: Microsoft Business Solution—Great Plains

CWCMH's need for a more scalable and flexible financial solution led them to Great Plains. Great Plains offered them powerful and unparalleled financial reporting along with robust core accounting requirements. "We are getting outstanding financial reports that we were previously unable to program," stated Letha Henderson of CWCMH. "The system has the flexibility to program almost any financial report. It is just up to the imagination. "

Great Plains flexibility gave CWCMH the ability to easily integrate with PsychConsult, allowing them to electronically transfer data from PsychConsult to the Great Plains General Ledger saving hours of data entry time each month.
