

FRx 6.7 Report Design Essentials II

Are you ready to become an Advanced FRx Report Designer?

You have taken the introductory course of FRx Report Designer, now attend the Microsoft FRx Report Design Essentials II advanced reporting class to build your skills even more! This two-day class is designed to help you gain complete control of your financial reporting process. You learn how to create a comprehensive financial and management reporting package that includes non-financial information from Excel, and how to create more complex reports such as statements of cash flow and those reports that require complex calculations.

What will you learn in FRx Report Design II?

- Discover more efficient ways to perform consolidations and allocations
- Learn how to use Effective Dates in Catalogs to dynamically control report building blocks
- Create and analyze OLAP cubes using FRx instant!OLAP Learn the basics of XBRL report design and output
- Create a variety of cash flow statements
- Learn advanced formatting concepts
- Use Row Linking to speed up processing time and reduce maintenance requirements
- Create advanced income statement reports using multiple segments in the row format
- Create complex calculations such as specific column placement and conditional statements
- Learn to rotate (expenses in columns)
- Relational Reporting (percentage of sales)
- And More!
