

Efficiency

Powerful, Affordable Software for Running Your Care Facility More Efficiently and Profitably

There's no doubt: Successfully running a long-term care or residential-living facility is a demanding job today. You need to manage rising costs and decreasing reimbursements, retain outstanding employees and comply with expanding regulatory requirements—all the while consistently increasing the level of care you provide.

Introducing a powerful, affordable Microsoft Dynamics® software system that can help you achieve all these goals—and ensure the continued success of your organization. This solution, brought to you by Microsoft® Gold Certified Partner The Resource Group, is designed specifically to meet the unique and diverse needs of today's long-term care and residential living organizations.

Microsoft Dynamics is a complete solution for managing virtually every area of your facility—from monitoring finances and streamlining processes to managing employees and tracking materials. Plus it provides easy integration with your current billing system. With Microsoft Dynamics you'll spend more time running your facility and ensuring high-quality resident care—and less time dealing with technology and processes.

A Complete Solution for Long-Term Care or Residential-Living Facilities

The Resource Group provides a complete solution for managing your long-term care or residential-living facility.

You benefit from:

- Improved collaboration between systems, business units and agencies.
- Up-to-the minute information through monitoring budgets and expenditures in real time.
- Increased ability to stay current with regulatory requirements.
- Ability to develop budgets across multiple business units, departments and agencies.
- Ease of obtaining financial and patient information in many different, simple-to-use formats.
- Straightforward integration with your current billing system.
- Ability to navigate throughout the solution with a familiar, easy-to-understand user experience.
- Easy customization of screens and reports so that they work the way your organization does.
- Empowered employees with anytime, anywhere access to web-based critical data and business processes.

Key Benefits

- Enjoy accurate, up-to-the minute financial information with robust financial tools that allow you to closely monitor profitability and costs, report across departments and business units and develop comprehensive forecasts and “what if” scenarios.
- Maintain optimal levels of resident occupancy using powerful tools to track and monitor current residents and vacancies—and even market efficiently to prospective residents.
- Efficiently manage your staff using powerful tools for tracking certifications and licensing and scheduling employees for increased efficiency and reduced costs.
- Materials management capabilities allow you to efficiently manage and track drugs, supplies and materials—and comply with increasingly complex regulatory requirements.
- Monitor facilities maintenance, construction and remodeling efforts with easy-to-use project accounting tools that allow you to efficiently track project costs and ensure timelines are met, without sacrificing efficiency.

Commitment

The Resource Group: Taking Your Business Further

Since 1988 The Resource Group has been a recognized leader in providing Microsoft Dynamics-based enterprise resource planning (ERP) and customer relationship management (CRM) solutions to growing organizations. Our sole focus is on delivering high-quality advice and solutions to your unique business problems. We are dedicated to building solid, long-lasting relationships that provide outstanding value to our clients. In fact, many of our clients have trusted us as their solution provider for more than a decade.

When you call on The Resource Group you benefit from:

- › **A singular product focus.** Unlike many solution providers, we dedicate all our efforts to providing one high-quality solution: Microsoft Dynamics. This singular focus ensures that our staff is truly expert in the solution we sell, customize, implement and support—and that you receive only the finest customer service from us.
- › **Proven expertise.** Our dedication to not just meeting—but surpassing—our clients' expectations has helped us earn the prestigious Microsoft Gold Certified Partner status, the highest level possible. Our highly trained staff, which includes CPAs and Microsoft Certified Professionals, has years of experience and understands how to deliver the results you're seeking.
- › **A methodology for success.** We work closely with you to understand every aspect of your organization and processes before we make any recommendations. Then we use a proven implementation methodology to ensure that your solution investment meets your specific needs—both now and in the future. This proprietary methodology ensures project consistency, improves quality and decreases implementation times.
- › **Outstanding training and support.** Our commitment to your success doesn't end once your solution is up and running. We back our Microsoft Dynamics software solutions with outstanding training and support, which helps you realize the benefits of your system for many years to come.

Put The Resource Group to Work for You!
